Get in. Go Far.

We see a world, our world, and impart knowledge in a way that learning becomes a way of life. To give for what we got, to help people discover the joy and meaning of learning in an empowered, dignified world, a kinship of humanity driven by competence, skill knowledge and wisdom. And in that world we wish to educate all who are in search of education at their doorstep and leadership in their mind and hearts. Career Point University nurtures potential entrepreneurs and managers for new levels of leadership in their careers.

We educate **leaders who make a difference in the world.**

Career Growth with Career Point University

With a view to bridge the gap between industrial requirements and academic curriculum, experts from the various fields of management are invited to enable students to know and understand requirements of industries and prepare themselves for future.

Training

Students are sent for practical training in various establishments according to their area of interest and specialization. Monitoring of training of students in different industries is conducted by faculty members of respective departments. Analysis of industrial training carried out on the basis of evaluation report received from industries, matter content and presentation of the training report submitted by the students and viva-voce conducted by the expert committee, constituted(discipline wise), for the purpose.

Placement

After awarding students their course certificates, the placement of each and every student of ours is going to be the key endeavor. For that we have several placement activities in our curriculum. We have special English proficiency and personality development sessions compulsory for all the students apart from GD & mock interviews.

For placement, Career Point University has organized campus interviews for students by corporate bigwigs and well established companies from all sectors. We have taken required measures to have tie ups with companies in Retail, Banking and IT sector and expect to have very good openings for our students as soon as they join us.

MBA (Master of Business Administration)

A full time 2 years programme in Business Administration specially designed for those students who are looking for managerial skills in management, the course will be predominantly based on presentations & interactions with a strong focus on the latest trends & practical concepts in management. It is aimed at creating mangers to face challenges in the corporate world. [Marketing I HR I Finance I Other]
