

Career Point University 2nd convocation

The second convocation of CPU Kota (Career Point University Kota) was held on Tuesday, 24th of December 2019, in the Career Point's auditorium. Wherein, degrees and gold medals were awarded to the students successfully who have completed their concerned courses at the University. Moreover, the speaker of Lokshabha, Sh. Om Birla was the chief guest to this convocation of CPU Kota.

The convocation ceremony commenced with lighting the lamp by Sh. Om Birla, Sh. Pramod Maheshwari- chancellor of Career Point University, Dr. Sumer Singh Vice-Chancellor, and other board members - Sh. Om Maheshwari, Sh. Shailendra Maheshwari, and Sh. Naval Maheshwari. Also, Sh. Sandeep Sharma current MLA, Sh. Hiralal Nagar Ex-MLA and other dignitaries were present in the ceremony.

Sh. Pramod Maheshwari urges the students to be the medium of change.

Addressing the ceremony, Sh. Pramod Maheshwari chancellor of Career Point University remarked that:-

"The moment when I got my degree from IIT Delhi, I hadn't imagined my presence in the convocation as a Chancellor and Chairperson of a University someday. Likewise, a time will come when you will reflect back on your life and ponder over your achievements. Moreover, in concurrent India, you have many opportunities, whether it is "Skill India," "Swachh Bharat Abhiyan," "Make in India," "Digital India," "Smart City," or Startup. I want you to become the medium for change and script the story of new India."

Sh. Om Birla asserts convocation to be the final day of accomplishment to student's determination.

As per the words of Loksabha Speaker Sh. Om Birla-

"Convocation is the final day of accomplishment with respect to the student's determination, which they get after their knowledge, dedication, and hard work. It's the day that reminds them about their hard work and the challenges they faced, for their rest of life."

Additionally, he said that education must not remain limited to mere books and examinations. It should span the personality development. Education teaches us discipline and the way to become a noble citizen. He further added that Career Point is making its contribution in all the segments of learning, from as early as the playgroup studies to the university level of education.

Degrees and medals distribution at the convocation

In the convocation, a total Of 1170 students, including international students from different faculties, got degrees. These faculties include different engineering streams like civil, mechanical, computer science, electronics and communication, electrical, digital communication, power system, and others.

Also, there were students from other streams like computer application, commerce and management, agriculture science, law, education, health, and allied sciences, polytechnic, etc.

who received their degrees in the convocation. As per the University stats, around 40 students were awarded gold medals, out of which two students were from Nigeria.

Ph.D. degree to the social activist Prashanna Bharti

The Career Point University granted a Ph.D. degree to the famous social worker and activist Smt. Prasanna Bharti for her contributions made to society. And on this enlightened occasion, Smt. Prasanna Bharti commented that people should get motivation for social work. It would be an enormous achievement for our society.

Undeclared despite the adverse condition

The students getting degrees and medals were from all walks of life. Some exemplary students continued their education despite many constraints. For instance, Shivraj Gurjar, a student of B.Tech electrical, completed his studies by arranging the finances by giving tuitions to the school students.

Another student, Chhotray Tiyu, a student of B.Tech who hails from a tribal area of Orissa, surfed through the constraints. He moved ahead to prepare for the GATE exam despite financial constraints, under the guidance and motivation of CPU faculty members.

Selfies with foreign students

In the end, more than 200 international students of CPU who belong to the foreign nations took selfies with the other regional student and captured the delightful moments in the form of pictures. These international students belong to foreign lands like the African lands like Nigeria, Ghana, Uganda, Ramada, Ethiopia, Mozambique, Zimbabwe, as well as Afghanistan and Nepal.

Career Point University at a glance

The vice Chancellor of Career Point University has presented the University report, and according to it the glimpses of CPU are:-

- Currently, 5657 regular students in various courses.
- More than 200 teaching staff including Professor, Associate Professor, Assistant Professor etc.
- Over 220 international students including students from Nigeria, Ghana, Uganda, Rwanda, Ethiopia, Mozambique, Zimbabwe, Afghanistan and Nepal etc.
- More than 550 research papers published in National and International Journal.
- More than 250 companies visited for placements so far.
- Placement of more than 1800 students in renowned companies of the country including Microsoft, Wipro, Amazon, Infosys, HCL etc.
- The University imparts more than 100 courses.
- The University has set up an Agrilclinic and Business Center in collaboration with the National Institute of Agricultural Extension Management, a Government of India organization, for the free training of scientific and business practices of agriculture.

- Local villagers are made aware of advanced agriculture by the Faculty of Agriculture.
- In the international conference organized last year by the Faculty of Agriculture, the eminent scientists of the country had participated. It scaled up the awareness about agricultural research in the Hadoti region.
- Free OPD is being conducted for the villagers on the university campus by the Physiotherapy Department of the Faculty of Health Sciences of the University.
- The physiotherapy department is also providing free services in the health center of Mandana village.
- Students of law who have studied in the University's School of Legal Studies and Governance have done well in the Moot Court Competition of National Law University.
- Students of law have also been a pioneer in organizing free legal awareness and assistance camps in the interest of local villagers.
- Entrepreneurship Development and Incubation Center has been established to make University and local students aware of self-employment, in which free training programs are conducted.
- The University also offers opportunities to students from other institutions in its campus placement process, through which more than 300 students from other institutions have benefited till now.

CPU Research Highlights

The University has made a significant contribution to the fields of research even in its infancy.

- University researcher Dr. Preenon Bagchi did important research on migraine (REM disorder).
- Dr. Mohammed Anees on "environmental awareness and attitude of students."
- Dr. Preeti Malviya studied "adolescent stress in psychological and social perspective."
- Dr. Pallavi Chandwaskar, on "carbon emission and carbon footprint."
- Dr. Rajni Inbhavan on "Hyper Activity Disorder"
- Dr. Shalini Maheshwari did her research on "the discovery of antioxidants in plants."
- Dr. Shikha Vyas has done substantial research on the state of human resource management in NGOs!
