The academic system of Career Point University is students centric giving students an opportunity to participate to enhance their knowledge, skills and understanding in multi-disciplinary environment through practical experience to ensure that knowledge imparted to student works to build a strong career.

Key aspects of CPU academic system are:

- Interdisciplinary & Flexible Curriculum
- Project & Industry Integration
- Learning Beyond Classroom
- Active Student Life
- Credit Based Academic System

The academic system of CPU is just not limited to course curriculum but also to inculcate various skills which are essential for student to become professional and leaders of tomorrow.

TEACHING AND LEARNING - *Knowledge that Works*

Students learn best when they are actively participating, whether that be through focused listening, discussion, problem solving or explaining to others. The teaching and learning at CPU encourages critical thinking and analysis.

We pride ourselves on the quality of the education we provide. All subjects are taught by experts as per the latest industry requirements, ensuring that outdated techniques are eliminated from the course content. Practical skills are a vital part of any course, and it is important that the laboratory and project work should integrate well with the taught courses. As such, not only laboratory experience but also individual and team project work are given a high priority during the teaching and learning at CPU.

All the courses at CPU are designed as per the needs of industry to ensure you acquire the skills and knowledge necessary in your chosen career.

RESEARCH INNOVATION & ENTREPRENEURSHIP

Research

The Career Point University revels in having the highest standards of research with eminent research faculty to match the best in the region. Outstanding research works of our students have been rewarded with international and national recognition and awards.

Innovation

Career Point University has implemented an innovation fund policy to provide initial financial support to students who want to develop something innovative and useful for the society or the mankind. Later the option is always open to file a patent of the work done by the scholars. Hybrid Car and Commercial production of Solar Lamp are the initial appreciable steps taken by our students

Entrepreneurship

The University is inculcating such skills during the learning process so that the future leaders come forward and start their own venture as an "Entrepreneur". Instead of job seekers they should be job provider or employers.

Learning at ED Cell helped alot to our Startup

CPU has a dedicated Entrepreneurship Development Cell which educate & motivate students to become an entrepreneur. During our college time we had decided to become an employer not an employee and guidance & learning at ED Cell helped us alot to raise funding of 80 lakhs for our startup. We are thankful to CPU for what we are doing today without their guidance it would not be possible.

Technique of farming without soil

Agriculture Students have demonstrated hydroponic technique of farming that doesn't require soil for growth of plants. In this technique plants get their nutrition only through water. 8 to 10 plants are placed in a series in cylindrical pots and water is passed through a motor & all the minerals of soil are mixed in water in liquid form.

Pattal Making Machine:

There is an ample opportunity for the traditional patravali due to its environment-friendly nature and biodegradability. An attempt of fabricating low-cost and more ergonomic pattal making machine is hereby made. The machine is manually operated by a foot pedal, has a fixed upper die and a moveable lower die, and is composed of a heating element.

Low Cost Hybrid Multi-Tasking Vehicle by Mechanical Branch students

A group of final year Mechanical Engineering students have developed a hybrid and economic transport vehicle which is beneficial to farmers and traders of small towns and villages. The engine is capable of generating a maximum transmitting power of 10 BHP and it can operate on battery or petrol. The fuel efficiency is 45 km per liter and it can carry a maximum load of 2 tonnes.

Go Kart for Elite Karting Championship 2017:

Students from Mechanical and Electrical branch jointly developed Go- Kart for Elite Karting Championship 2017 held at Bhopal. This was an international level Go-Karting event for all technical students. Due to their innovative ideas, excellent design and meticulous execution with set technical specifications; CPU students achieved 6th position among more than 100 teams in finale.

Briquette Compressing Machine:

- Mass Production of Biomass Briquettes.
- The Machine provides Rapid Prototyping & Mass Production of Biomass Briquettes and it requires less time to fill the patterns.
- The machine can form six briquettes at a time with the involvement of single person.
- The briquettes compression force is high as compare to manually operation, which provides briquettes with high strength, good texture, less water content ratio.

Bogie Mechanism: The model was developed as simulation for multi-purpose use in daily life. The design has no springs or stub axles for each wheel, allowing the bogie to climb over the obstacles. This mechanism is suitable for carrying items in shopping malls; one can find a separate place for carrying kids. This mechanism maintains the chassis in a balanced position, and avoids shocks even on an irregular surface.

Electricity Generation from Swing:

Mechanical Engineering, B. Tech students conceived and developed innovative idea of generating electricity from the swing.

STUDENT'S SPEAK

I am from B.Tech Computer Science. Faculties are very innovative in teaching and they help me to get best knowledge. CPU follows IIT system which enhances overall skills of a student. Training and Placement department at CPU groom students to face interviews. Due to the endless effects of Training and Placement department I have placed in Infosys. I thank CPU for all they have done for me thank you.

Priyanka Deore working with **Infosys**

It's been a privileged to be part of Career Point University as a Scholar. Regular classes, labs & training sessions helped me to be a job ready. Training and Placement Cell helped me to gain more confidence and providing us the way to crack interviews and debates, group discussion etc. So with the help of this I got many bright career options. Thanks to CPU Team.

Ambika working with **Xerox**

At Career Point University I have developed many skills. I participated in many co-curricular activities. As a part of Immix I was student coordinator for the entire event. I have hosted many events in CPU like seminars and conferences. These activities has groomed my personality many folds. With the best mix of academics and co-curricular activities I could get the job in Microsoft EPS. Overall it has been a great experience and learning at Career Point University.

Romish working with **Microsoft EPS**

I am currently pursuing B.Tech from CPU Kota. CPU follows IIT, Delhi based academic system which enables us to gain more practical knowledge rather than to be a book worm. Teachers over here are cooperative and helping in nature. Academic system motivates us to explore ourselves more by providing us opportunities to participate in club activities.

Shreya Jain working with **TCS**

I participated in many activities like sports league, workshops & lead the hospitality team for various national & International seminars & workshops. Training & Placement Cell developed me in such a way that i had been able to crack Axis Bank interview in first attempt.
