One Day Training Programme on Sustainability for Faculty & Staff

Title of the Event	One Day Training Programme on Sustainability
Date & Time	08th February, 2025 10:00 AM to 04:00 PM
Venue	Ground Floor, Auditorium
Brochure	Organizer	IQAC in Collaboration with Sustainability Committee
Resource Person	• Dr. Abid Hussain, Dean Research • Dr. Kamal Arora, Director IQAC • Dr. Sangeeta Mathur, Dean, School of Arts and Humanities
Objective	The primary objective of the training programme was to create awareness among faculty and staff regarding sustainable development practices and to encourage the adoption of eco-friendly measures in academic and administrative functions. The programme also aimed to integrate sustainability concepts into teaching, research, and campus operations.

Programme Details	The programme commenced with an inaugural session, where the importance of sustainability in higher education institutions was emphasized. The resource persons delivered an insightful lecture covering various aspects of sustainability such as climate change, energy conservation, waste management, and the role of individuals in promoting sustainable practices. The session also included interactive discussions, case studies, and practical examples that highlighted the significance of incorporating sustainability into everyday academic and administrative activities. Participants actively engaged in the session through questions and discussions.
Key Highlights	• Awareness on sustainable development and environmental responsibility • Discussion on institutional role in achieving Sustainable Development Goals (SDGs) • Practical insights into waste management and energy conservation • Interactive session with active participation from faculty and staff
Outcomes of the Programme	The programme successfully enhanced awareness among participants regarding sustainable practices. Faculty members were encouraged to integrate sustainability concepts into their curriculum and research, while staff members were motivated to adopt eco-friendly practices in their daily work. The programme also fostered a sense of responsibility towards environmental conservation within the university community.
Feedback from Participants	The feedback received from participants was highly positive. Most participants appreciated the relevance of the topic and the practical insights shared during the session. Suggestions included organizing more such programmes and conducting hands-on workshops in the future.
Conclusion	The One Day Training Programme on Sustainability was successfully conducted and achieved its objectives. It served as an important step towards promoting environmental awareness and sustainable practices among faculty and staff, thereby contributing to the overall development of a responsible and eco-conscious academic environment.
