Notification

Establishment of CPU Centre for Sustainability

In alignment with the University's commitment to promoting sustainable development and environmental responsibility, the **CPU Centre for Sustainability** has been established as a dedicated institutional initiative. The Centre aims to promote interdisciplinary and collaborative research focused on advancing sustainable practices, innovative technologies, and solutions to address environmental challenges. It serves as a platform to integrate academic research, industry engagement, and community outreach in support of sustainability and climate action goals.

Objectives of the Centre are to:

- Promote interdisciplinary research, innovation, and knowledge dissemination in various domains of sustainability.
- Support faculty members and students in undertaking research projects, publications, and externally funded initiatives related to sustainability.
- Organize workshops, seminars, training programmes, and conferences to enhance awareness and capacity-building in sustainable practices.
- Foster collaboration with industry, government bodies, and non-governmental organizations (NGOs) to advance sustainable development initiatives.

The centre shall be led by the Coordinator CPU Centre for Sustainability, who shall directly report to the Vice Chancellor. The coordinator shall manage all centre operations and shall be a permanent member of the Sustainable Development Goals Committee (SDGC) of the University. The coordinator shall hold the position for a period of 3 years.

This notification bears the approval of the competent authority with immediate effect.
